

CONSULTATION - FORT – MAIN STREET PLAY AREA

The wooden fort at Main Street Play area pictured above is in need of repair due to wood rot. A particular issue are the wooden steps. Before any repairs are carried out the Parish Council needs to know how this feature is used, and what represents best value for money.

There are 3 options for the steps – replace them, replace with grassmats, or replace with turf. The first option is over £1,200 more expensive – however removal would make the mound less easy to climb and muddier in bad weather.

However if the fort is not a popular feature it could be removed and replaced with a new feature at some time in the future.

We are asking families who use this facility to advise the Council of the best action to take.

Please submit comments to the Parish Council at clerk@church-fenton.net, or use the form below and hand in to any Parish Councillor. Please respond by 31st December 2016.

The fort is a popular feature and should be fully repaired

☐

The fort is a popular feature, and the cheaper repair would be satisfactory

☐

The fort is little used and should be removed

☐

Any other comments
